2019 NEW PRODUCTS

Indoor / Outdoor
Architectural and Retail Lighting
TARGETTI GROUP is one of the most respected and recognized manufacturers of sophisticated architectural lighting solutions for the international lighting community. Targetti USA offers a wide range of products that are suitable for many different applications and are characterized by a high level of quality, design, functionality, performance and compliance with North American standards including UL/ETL, ADA, Title 24, NEC. Every Targetti product expresses the values the company holds dear. On one hand perfect light control and excellent performance, and on the other extreme attention to aesthetic detail. We cater to designers to provide flexible solutions that can meet even the most complex aesthetic and functional needs.
ZEDGE FAMILY

...One of Targetti’s most complete collections to address your OUTDOOR WALL RECESSED applications.

Designed in collaboration with Gensler, the ZEDGE Family originated with the award-winning ZEDGE and ZEDGE PRO Step Lights and now includes the addition of ZEDGE Line, a compact linear luminaire, and MR. and MRS. SMITH, complimentary square appliques.

The ZEDGE family delivers a full offering of versatile sizes and light effects with a cohesive and coordinated aesthetic.
ZEDGE LINE

The ZEDGE LINE is a compact linear LED luminaire with the versatility to be installed in both indoor and outdoor applications. Available in three color temperatures and a choice of power supplies.

Designed to coordinate with the ZEDGE Family of products such as the ZEDGE LED step marker which has a minimal design and compact size (2.5” x 2.5”) and is available with three faceplate styles and 13 standard finishes.

ZEDGE PRO BOLLARD

The ZEDGE PRO BOLLARD was designed to provide the ultimate in design flexibility and ease of installation. Available in three popular sizes, the ZEDGE PRO Bollard delivers three solutions in one product. The innovative design consists of a single frame that when adjusted, delivers a Deep, Wide, and an Adjustable Optic.

Designed to coordinate with the ZEDGE Family of products such as the ZEDGE LED step marker which has a minimal design and compact size (2.5” x 2.5”) and is available with three faceplate styles and 13 standard finishes.

www.targetti.us
TARGETTI, with a wealth of successful experience in developing optical systems and meeting the different needs of the market in terms of design flexibility, is presenting a comprehensive offering of the first series of light fixtures fitted with innovative Dynamic Beam Shaper (DBS) technology. These are projectors with variable optics that can vary the beam opening using digital input without using any mechanical system.

DBS enabled fixtures are fitted with an optical system that can dynamically vary the beam opening angle passing in a gradual manner from a more concentrated SPOT (around 10°) type emission to a wider WIDE FLOOD (around 50°), flowing fluidly through all points in between. This technology based on the use of liquid crystal lenses makes it possible to vary the beam without using any mechanical or mobile parts but by using an IoT control system.

DBS enabled fixtures are fitted with an optical system that can dynamically vary the beam opening angle passing in a gradual manner from a more concentrated SPOT (around 10°) type emission to a wider WIDE FLOOD (around 50°), flowing fluidly through all points in between. This technology based on the use of liquid crystal lenses makes it possible to vary the beam without using any mechanical or mobile parts but by using an IoT control system.

* The 4000K COB LED source has values 3.2% higher than those relative to the 3000K, shown in the table.
DYNAMIC BEAM SHAPING (DBS)
CCTLED DBS

As one of our most comprehensive and versatile solutions for architectural lighting, the family of CCTLed has added another gem to its family - CCTLED DBS. Particularly suitable for professional architectural illumination, providing high performance, precision and versatility, the CCTLED DBS delivers one powerful with beam shaping technology to enhance this expansive downlight family.

**Dimensions**
- 6" Dia. Aperture

**LED**

**ZENO / ZENO DBS / ZENO APPLIQUE**

ZENO is a versatile fixture with a modern design that works seamlessly in both track lighting and wall mounted applications. Choose different optics for different lighting effects from our standard ZENO to our ZENO DBS. Choose from precise and defined light to a wall wash effect to “splash” wide vertical surfaces. ZENO’s track projector is equipped with an optical system that can offer standard optics or vary the beam opening in a dynamic way passing gradually from a concentrated Spot type emission (around 10°) to Wide Flood (around 50°) moving through all steps in between fluidly with our DBS technology.

**CORO DBS**

A compact projector designed specifically for high intensity LED projection that is now available with DBS technology. CORO’s optical body can adjust +/-165° horizontally and +/-180° vertically with aim locking with a single knob for the two free degrees. It features an articulated arm that is adjustable +/-180° vertically and is available in two lengths. The powerful optics and versatile mounting accessories make CORO an ideal choice to illuminate objects on display with precise, clean beams.

RAY MICRO

TARGETTIT’s RAY MICRO features a powerful LED track projector that is adjustable from 0° -90° on the vertical plane and 359° on the horizontal plane.

These fixtures, with an essential, simple design, produce different effects with a choice in optics that enable precise light beams with a Spot or Medium Wide Flood that highlight objects or architecture in a skillful contrast of light and shade. Featuring die-cast aluminum construction, the versatile track projector features a mechanical friction lock and aiming system that ensures the center of gravity always remains in axis with the track regardless where it is aimed. Available in 3000K and 4000K with dimming and track options.
OZ

OZ is TARGETTI’s new, user friendly, 48V modular system that provides designers with a versatile, modern, and compact track lighting system. The complete OZ range offers a customizable system that will provide a choice of five installation options from recessed to suspended with “power track only” or with profile and track combinations. The compact system features a power track that is less that 1” W x 0.16”H with full modules measuring only 2.17” in height. The easy to use system features mechanical and electrical connections that are installed with magnets. One system - Multiple options.

OZ System Components

**SMALL MODULE**

DURATAPE NEW CHANNELS

Our enhanced line of channels provides an even broader and versatile selection to choose from. Enjoy a versatile selection from compact, slim, surface, adjustable, recessed, walk over, plaster in, decorative suspension profiles and a wall profile with double emission. A full selection for a variety of needs.
MICROLINI

MICROLINI features a small profile linear LED flexible strand that provides multiple uses and applications such as coves, undercabinet task and directional tasklighting. The flexible segmented strand system, comprised of compact round modules, can be bent horizontally up to 180° and 45° vertically from the next module for complex cove and niches applications. It comes in 12" increments of 4 modules with an extruded aluminum round body with an opal lens cover and aluminum end caps.

Duralamp is proud to offer a new Retro style lamp to its popular DecoLED retro filament style LED lamp family.

This vintage lamp series delivers today’s LED technology in an energy efficient lamp with a classic look but modern output and efficiencies. The series is fully dimmable and available in a variety of lamps from 4W to 8W. The addition of the Mirror Bottom G95 with a soft filament provides up to 800 lumens with high efficacy of up to 60Lm/W.

The full DecoLED Techno Vintage Series is now available in six distinct styles.

**NOW Available in 6 Styles:**
- G95 Model (3.74”D x 5.51”H)
- G25 Model (3.25”D x 4.6”H)
- S21 Model (2.28”D x 5.12”H)
- T10 Model (2.52”D x 5.51”H)
- A60 Model (110”D x 7.38”H)
- CANDLE (1.3”D X 3.9” H)

3F Filippi and Targetti, two companies that have shaped the history of lighting in Italy, are now embarking on a new venture with an ambitious common goal: to be the sole partner for lighting professionals and designers looking for quality solutions for all their project requirements. By combining their respective expertise in technical and architectural lighting the two brands together provide a complete portfolio of products that proudly take Made in Italy technology to more than 50 countries worldwide.

Today the 3F Filippi-Targetti Group can meet and satisfy any kind of design and project requirements. Our partners can choose from a huge selection of products and solutions; from high-tech and functional products from the 3F Filippi catalogue to indoor and outdoor architectural lighting fixtures designed by Targetti, right up to a wide range of LED lamps and fixtures form the Duralamp brand.
